A One Day Workshop on
Intellectual Property Rights
(IQAC Initiative)

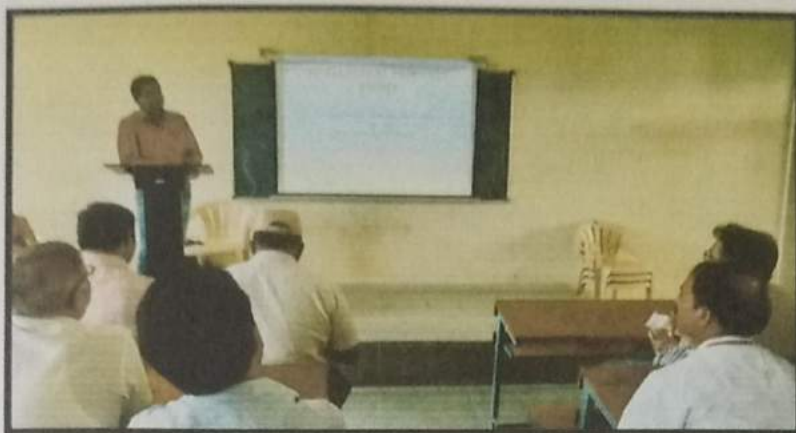

✚ **Meeting:**

A meeting of the staff was called on 15th Feb, 2020; to discuss about the organization of IPR workshop in the college.

✚ **Minutes:**

It was resolved to organise the Intellectual Property Rights Workshop on 26th Feb, 2020.

Dr. P. L. Suryawanshi, Head, Dept. of English, Wadala was invited as Resource Person for the same.

Internal Quality Assurance Cell (IQAC), A. R. Burla Mahila Varishtha Mahavidyalaya, Solapur organized 'A Workshop on Intellectual Property Rights' for the faculty of the college on 26th Feb. 2020. Dr. P. L. Suryavanshi from Mauli Mahavidyalaya, Wadala was the resource person and Prof. Dr. Annie John, an IQAC coordinator was chairperson of the workshop. Miss. Patil B. S. introduced the resource person to the audience. Dr. Sauryavanshi spoke on IPR, its significance and importance. He also spoke about the types of patent and its importance. Mr. Ruge K. S. was the anchor person of the program. Prof. Dr. Bhanje S. B. expressed vote of thanks at the end of the workshop. All the teachers of the college participated in the workshop.

A Summary of Dr. P. L. Suryawanshi's Talk

Intellectual property rights are the rights given to persons over the creations of their minds. They usually give the creator an exclusive right over the use of his/her creation for a certain period of time.

The main purpose of intellectual property law is to encourage the creation of a wide variety of intellectual goods. To achieve this, the law gives people and businesses property rights to the information and intellectual goods they create, usually for a limited period of time. Intellectual property (IP) refers to creations of the mind, such as inventions; literary and artistic works; designs; and symbols, names and images used in commerce. IP is protected in law by, for example, patents, copyright and trademarks, which enable people to earn recognition or financial benefit from what they invent or create. By striking the right balance between the interests of innovators and the wider public interest, the IP system aims to foster an environment in which creativity and innovation can flourish.

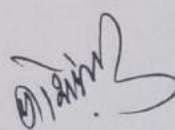

Copyright is a legal term used to describe the rights that creators have over their literary and artistic works. Works covered by copyright range from books, music, paintings, sculpture and films, to computer programs, databases, advertisements, maps and technical drawings..

Patent: A patent is an exclusive right granted for an invention. Generally speaking, a patent provides the patent owner with the right to decide how - or whether - the invention can be used by others. In exchange for this right, the patent owner makes technical information about the invention publicly available in the published patent document...

Trade secrets are IP rights on confidential information which may be sold or licensed. The unauthorized acquisition, use or disclosure of such secret information in a manner contrary to honest commercial practices by others is regarded as an unfair practice and a violation of the trade secret protection.....
